**Subject: Please add TCR Solutions to your bid list for electronic equipment.**

Thank you for taking the time to read about **TCR Solutions, LLC!** We have a multitude of options available for educators.

- You can specify the system you want and order one or multiples of that system.
- We can configure a system for you that has its own SKU and it can be re-ordered using that SKU to ensure that you get exactly the machine you want, every time you reorder.
- Of course, the 3 year warranty and *local support* are available on all systems.
- RMA authorization can be configured to allow you to create your own warranty returns with the manufacturer.
- Recycling options for end of life equipment through our subsidiary: **Acme Computer Recycling, LLC**

**TCR Solutions, LLC** is a Better Business Bureau accredited firm based in Medford, Wisconsin. Our service area covers central and northern Wisconsin and adjoining counties in Minnesota. Excellent price/performance is critical and we strive to make it a standard in our business, which is why our systems are built by Equus Computer Systems. **Equus Computer Systems** is a national computer manufacturer that has integrated and shipped over two million build-to-order systems since its inception in 1989 and they currently build over ten thousand systems per month. They offer a wide variety of high-quality high-performance Intel® processor-based equipment, proven expertise, and excellent support through a nationwide system of value added resellers like **TCR Solutions, LLC**.

The NOBi-Convertible, the newest in the Equus Classmate line, is a mobile computing device designed specifically to meet the unique learning needs of elementary school students.

Sincerely,

**Tom Rasmussen**

*Where is Your Computer Guy when You Need Him?*

**Software Stack:**

**Evernote--Note Taking:** This fantastic note taking program allows users to organize notes in separate notebooks as well as view all the notes by notebook at one time. With the program, you could find anything even with text within images. Also this program allows you to automatically filter notes by using saved search with a time band showing note taking activity around specific dates.

**Arcsoft Webcam Companion:** Some of the key functions of this webcam application included on the Nobi Convertible includes Live Framing, One Button Capture, Adjustable Resolution, Video Capture, Media Manager, Picture Editor. Supported Format: jpeg, bmp, tiff, wmv

**MyScript Stylus-Handwriting Recognition:** One of the most innovative software on the Nobi Convertible is the Touch optimized Digital Writing/Drawing Recognition program Myscript Stylus. Users can easily navigate tablet mode using a pen. Also included is the on-screen soft keyboard which is an alternative keyboard for the tablet. The program can recognize pen gestures in order to perform shortcuts for common commands such copy, cut, paste, delete. Anything written in the Myscript Stylus program can be automatically transferred to a Notepad or Word pad. In addition, a single stroke of forward or backward with backspace, space, or enter function.

**ArtRage2--Painting Tool:** ArtRage is a fun and innovative painting tool that includes oil, crayon, pen, glitter and pencil options for drawing. Also, it has stencil and ruler functions as well as layers and custom colors.

**Foxit Reader--pdf reader:** The Foxit Reader is a touch optimized reader for pdf files exclusively. Some key functions include scrolling and panning, full screen viewing, copy text to clipboard, zoom in/out, as well as hyperlinks support.

**FBReader--e-book reader:** The FBReader is an e-book reader that supports ePub, chm, html, rtf files. Similar to the Foxit reader, it is touch optimized with key functions including scrolling and panning, full screen viewing, copy text to clipboard, zoom in/out, as well as hyperlink support.
